WELCOME TO AZUAGA

Azuaga is a town located in the “campiña sur” area of the province of Badajoz close to Seville and the foothills of the “Sierra Morena” mountains. Its white houses, Mudejar architecture, and exceptional gastronomy are incredible, and they are also its main tourist attractions.

CULTURE AND ARCHITECTURE

The most relevant part of this interesting information is that there are only three pieces exactly like our Baptismal font: one in Triana (Seville) the second one here in Azuaga and the third one in New York city.

The historic center of Azuaga stands out for its architectural heritage. Anyone who loves a cultural heritage will enjoy the pleasant stroll through its streets. One of these unique buildings is the church of the Consolation.

NATURE AND SURROUNDINGS

Very close to the town is the Sierra de Azuaga Peri-urban Park, populated mainly by deer and partridges, and within it lies the Sotillo Dam, where you can go fishing or birdwatching. To reach all of this, you must walk along a trail. It also has a camping area where you can put up your tent and build a campfire.

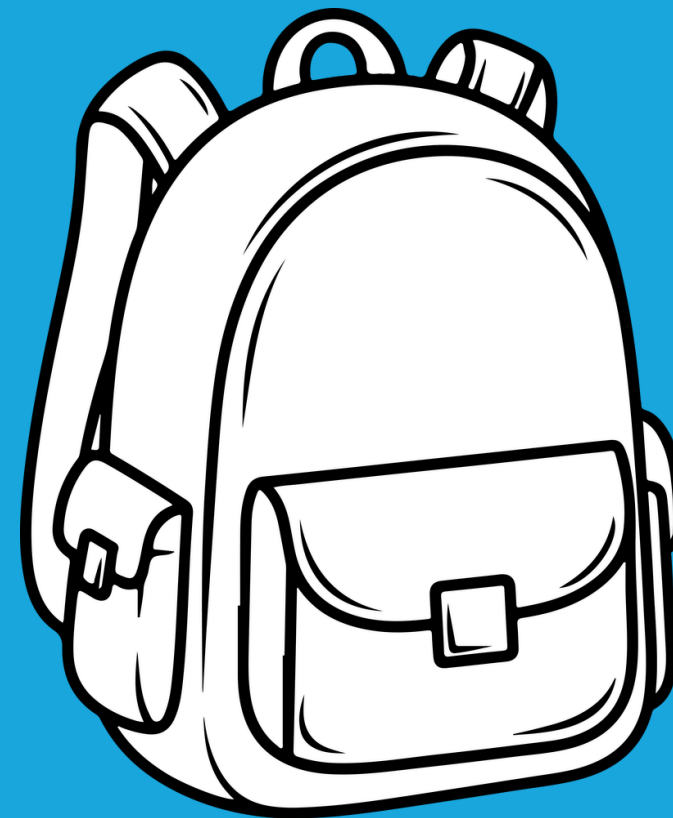

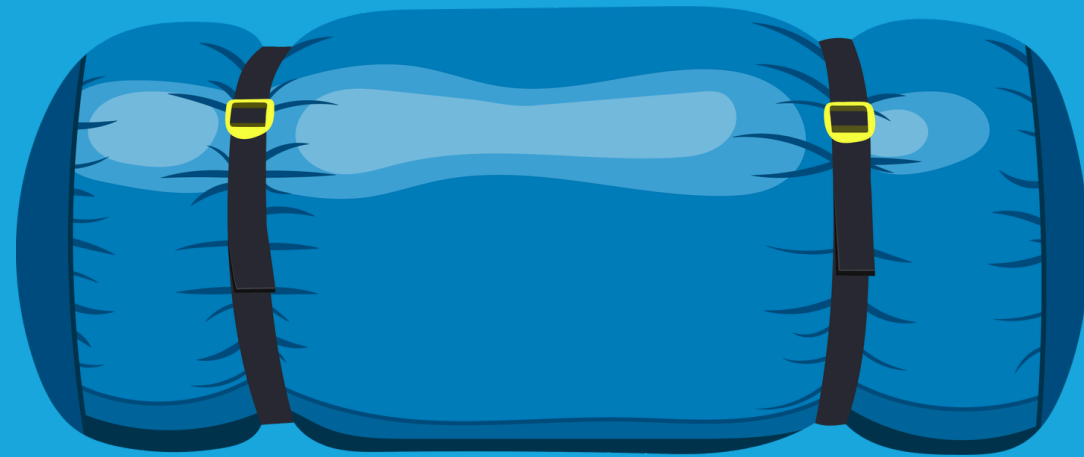

LAST EXPERIENCE

Lastly, you can enjoy an unforgettable experience in nearby places such as: the natural Monument of the Jayona Mine, the town of Zafra and Llerena with a singular building: nineteenth-century stately home that currently is a 4-star hotel where you can enjoy some of the specialties of the gastronomy of Extremadura, an exquisite selection of wines, the attentive service and the elegant and welcoming atmosphere. The hotel also has an intimate SPA where you can forget all stress and spend the night.

TRIP ESSENTIALS

On every trip we should bring a series of essential items such as: a backpack, a sleeping bag, a mobile phone, identification cards, a small backpack with first-aid supplies, and some food and drinks.
